## DETAILED ACTION

### *Election/Restrictions*

1. Claims 8-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the paper filed 28 April 2003.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 2-7 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8, 9, and 11-14 of copending Application No. 10/029,373. Although the conflicting claims are not identical, they are not patentably distinct from each other because the inventions of instant claims 2-7 represent a genus of which the inventions described by claims 8, 9, and 11-14 of Application No. 10/029,373 are species. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993).

Art Unit: 1773

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Response to Arguments***

4. Applicant's arguments filed 05 December 2003 have been fully considered but they are not persuasive.

The applicant argues that the double patenting rejection should be withdrawn because both the current application and copending U.S. Patent Application Serial No. 10/029,373 were filed on the same day. Thus any patents issuing from these two applications will expire on the same day and there is no possibility of an unjustified or improper timewise extension of the right to exclude granted by a patent.

This is not persuasive because even if a patent terms expire on the same date, this alone does not avoid the potential problem of dual ownership of patents to patentably indistinct inventions. Therefore, the double patenting rejection is maintained. However, since it is a non-statutory obviousness-type double patenting rejection, the rejection may be overcome with a timely filed terminal disclaimer in compliance with 37 CFR 1.321(c).

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 1773

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
